Our next club meeting will be

July 14, 2022, at 7:00 PM

South Florida Science Center
Annex Building
Dreher Park
4800 Dreher Trail N
West Palm Beach, FL 33405

This month's meeting will be a club get together.

Bring in a few of your most unusual finds, and some of your best stories.

As always, if you have any questions about your detector, or metal detecting related subject, meetings like this are a great time to bring them up. We have plenty of veteran detectorists who are happy to lend advice.

One of the main goals of our club is to help each other learn, so please don't be shy.

The true treasure of
our club is her
membership.

Thank you for being a
part of the Gold Coast
Treasure Club.

Is this yours?

This item was submitted in the Most Unusual category. It was second in the voting. If this is your item, please let Jack Kazee know, so you can be awarded your points toward Treasure Hunter of the Year.

Club Classifieds

If you have any items for sale, you can advertise them here in the newsletter. Just email Jack Kazee at kazee_jack@comcast.net with the details. It's free!

Your detector isn't just for finding pull-tabs.

I have been detecting for about five years, now. I have found a few nice things, but my finds box is mostly full of junk – bottle caps, pull-tabs, toys, fake jewelry, and other 'treasure'.

A few weeks ago, I got a call from my sister. She was trying to locate a pipe that ran underground from a parking lot to the side of her house. Melody and I located it, and we were able to trace the pipe's path completely from the house to the parking lot. My sister could have dug a bunch of holes and located the pipe, but we were able to find it easily with my Equinox 800.

Over the Fourth of July weekend, we were talking with a new friend we had made while visiting our daughter and son-in-law. He said he was trying to find the corner of a nearby lot, but he couldn't find the survey marker. I told him that if he had a general idea where the marker should be, we could find it. The next day, we went looking for the marker. After finding some antique Budweiser cans and a complete beaver-tail pull tab, we found an aluminum tube with plastic end caps just below the surface. This may be the marker! He said he knows a surveyor who is familiar with the area, so he should be able to confirm if this is the real marker.

There are many uses for your detector; just keep your eyes open for the opportunities.

The club has a For Sale table available for anything metal detecting related. So, if you have some gear sitting around not being used, bring it to the next meeting and sell it. It can be anything related to metal detecting / treasure hunting. There is no charge for selling items on the For Sale table.

Do you have your club pin yet? These pins are 3 inches across. A nice addition to any t-shirt, cap, or detector bag.

They are \$5 each, and are available at the meetings. See John Burke.
